Dear parents/carers,

You may be aware from media coverage that the government has asked some schools to close or partially close due to the presence of reinforced autoclaved aerated concrete (RAAC) in their school buildings. We understand that this is an unsettling news story and that it may naturally have led you to wonder about the safety of our school building.

Our school building does not contain RAAC and is fully safe to open.

We confirmed this in March 2023 after the government asked all schools to check their buildings for RAAC in the last few years.

I hope that this provides reassurance, and we look forward to welcoming your child to our safe and secure learning environment.

If you have any questions, please contact Mr Gill through the school office.

Kind regards,

Dave Gill
